Swiggy

FOOD FOR THOUGHT CHALLENGE

TEAM RENAISSANCE

MARKET OUTLOOK

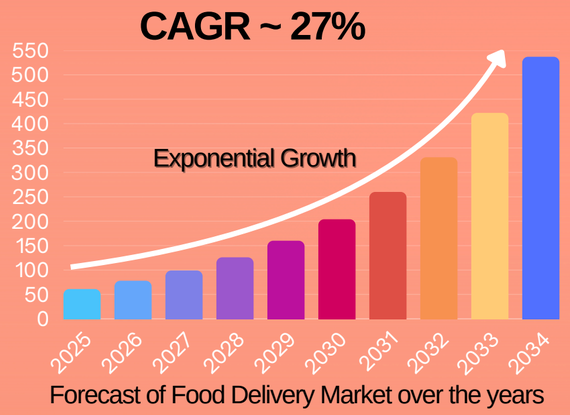

IMPROVING USER TRUST

Food delivery and dineout highest shareholder of payment volume through online gateways.

KEY DRIVING FACTORS

- Rising Student Spend
- Demand for Convenience
- Timed Innovation
- Competitor Analysis

Forecast of Food Delivery Market over the years

BREAKNECK EXPANSION

"**Growth Engine** : Penetration into Tier 2 & 3 markets will unlock the next wave of users."

KEY CHALLENGES

- Connectivity and Device Gaps
- Last-Mile Profitability
- Evolving Regulatory Landscape
- Intense Competitive Pressure
- Driver Supply & Management

INCREASING ASPIRATIONAL SPENDING

Market Validation → Higher margins → **More Penetration**

Higher Demand for Convenience & Choice (Food Delivery)

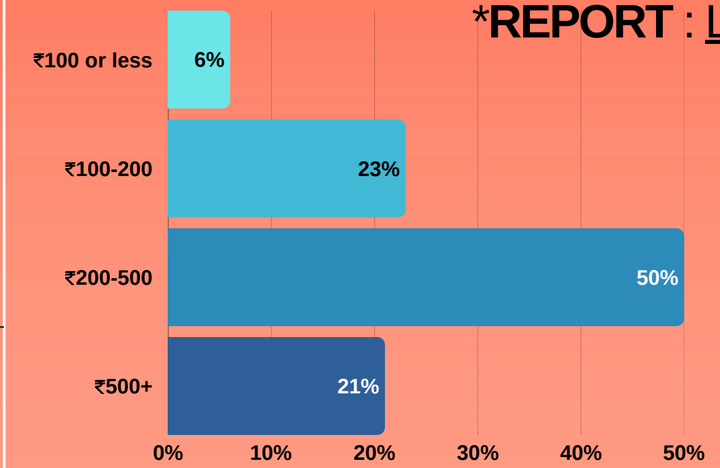

Enhanced Food Delivery and Dine-out Ecosystem

Improved User Experience & Trust

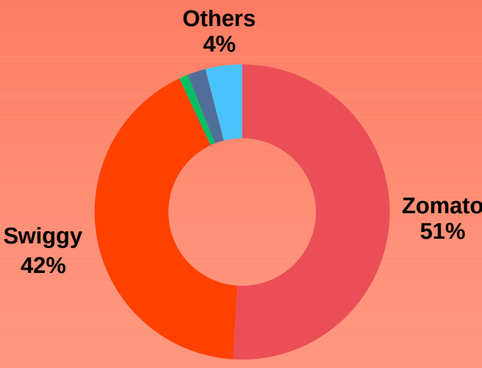

Increased Willingness to Spend Online

ADOPTION PATTERNS, INFLUENCES & USAGE TRENDS AMONG COLLEGE STUDENTS

COMPETITOR ANALYSIS

Hyperlocal / On-Campus Competition

- OFFICIAL COLLEGE CANTEENS
- FOOD SPOT SHOPS
- BRAND CAFETERIAS
- SHOPS IN VICINITY OF COLLEGE

Scaled / Off-Campus Competition

zomato, EatSure, Domino's, SUBWAY, Uber Eats, La Pino'z Pizza, DOORDASH, BURGER KING

USER PERSONAS

Tier 1 Campuses

"Mature and high-volume market"

THE SOCIAL ORGANISER

- High Order Value
- Event Driven
- High item Variety

Core Problem
"Friction in group ordering and bill splitting"

THE VALUE OPTIMISER

- High Time orders
- More browsing time

Core Problem
"Need for highly practical at no extra charges deals"

THE DISCIPLINED ACHIEVER

- Late-night orders
- Less browsing time

Core Problem
"Lack of consistent and reliable food options"

Tier 2 Campuses

"Aspirational and high-growth market"

THE ASPIRATIONAL EXPLORER

- Deal-Driven Discovery
- Fear of Missing Out

Core Problem
"Wants Tier1 lifestyle on Tier2 budget"

THE HOMESICK FOODIE

- Value over variety
- Health Conscious

Core Problem
"Wants healthy meals at a reasonable price"

Tier 3 Campuses

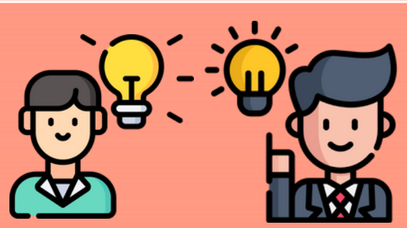

"Nascent and access-driven market"

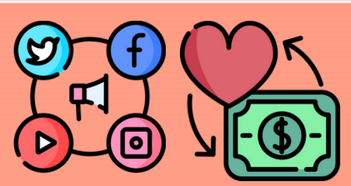

THE OCCASIONAL CELEBRATOR

- Go To Brands
- Social Ritual

Core Problem
"Very limited food choices with long delivery times"

A SOCIAL CURRENCY → CAMPUS CREDITS

OBJECTIVE

- To penetrate into **Tier 2** and **Tier 3** cities campuses.
- To tap **new user engagement** through social campaigns which drives organic marketing of swiggy's services.
- To engage existing users through new and innovatives solutions.

SOLUTION

- **It's a gamified digital currency system where students earn transferable credits.**
- **Socially, it creates a campus micro-economy.**
- **Drives loyalty by making ordering a collaborative and financially rewarding experience.**

OUTCOME

Real engagement through :

1. **Viral Growth via Referrals**
2. **Event Leaderboards**
3. **Credit Rankings**
4. **Squad Streaks**
5. **Order Streaks**

SOLUTION ARCHITECTURE

"HOW 'CAMPUS CREDITS' WORKS"

PERSONAL REWARDS ENGINE

Focuses on rewarding and engaging the individual student.

↓

Drives **individual loyalty** and **encourages discovery.**

1 Mechanics

- **Personalised Missions**
- **Badge Unlocks**
- **Base Credit Rate**

SOCIAL MULTIPLIER ENGINE

Incentivizes students to bring their friends into every order **(SQUAD)**

↓

Drives **organic user acquisition** and increases average order value.

2 Mechanics

- **Amplified 'Squad Bonus'**
- **Shared Cart &Bill-Split**
- **Real-time Incentive Ticker**

'SOCIAL CURRENCY' LAYER

Transforming credits from a simple reward into a liquid, shareable asset

↓

Builds **deep community engagement** and solves real-world budget problems.

3 Mechanics

- **Instant Credit Transfers**
- **Pooling & Gifting**

UNIFIED REDEMPTION GATEWAY

Ensures the credits earned are incredibly valuable and versatile, locking users into the entire Swiggy ecosystem.

↓

Provides **tangible value** and creates a powerful incentive to **stay loyal** to Swiggy for all services.

5 Mechanics

- **Flexible Discounts**
- **Strategic 'Power-Ups'**

GAMIFICATION & COMMUNITY

Focuses on creating **long-term stickiness** through competition, social status, and community recognition.

Eg : Weekly Top Foodies

4 Mechanics

- **Campus Leaderboards**
- **Inter-Hostel Challenges**
- **Social Validation**

THE 'SQUAD BONUS' MECHANIC

1 Form a Squad

- Host starts a "Squad Order" & shares a link.
- Friends join a shared cart.

2 Unlock Tiers

- 1 Member: 10% Credits
- 2-3 Members: 15% Credits
- 4+ Members: 20% Credits

3 Credit Distribution

- Credits are calculated on each member's individual spend.

Example (4+ Squad):
A ₹300 spend earns that user 60 Credits (₹60)

As Squad Streaks helps in accqiring new users at no upfront costs . Therefore , **Cost of customer accquisition decreases** ↓

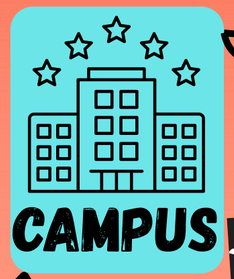

THE SWIGGY ECOSYSTEM

Solo Ordering
Earn 10% Credits

Earn Upto 20% Credits

COLLEGE CAFETERIAS

Swiggy Dineout

"**Challenge the Mess:** Use Credits to offer a superior, flexible alternative to fixed cafeteria plans."

Increased Dependence on Swiggy's Services

COLLEGE SHOPS

Credits can be used against UPI

PROXIMITY MARKET

The Night Hub: Onboard popular local vendors as exclusive, late-night 'virtual kitchens' standardizing quality."

FAMOUS OUTLETS

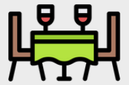

Domino's

SUBWAY

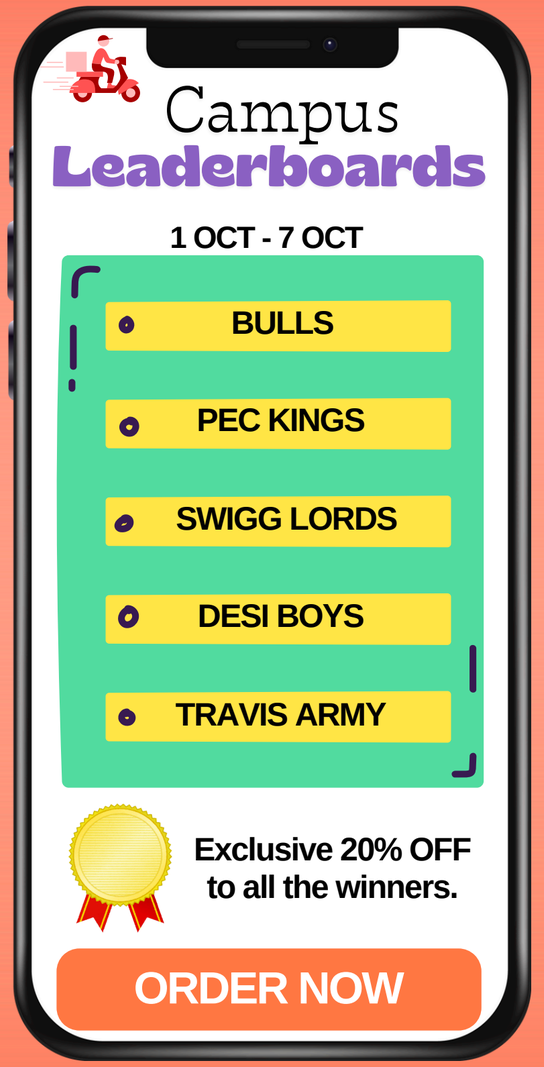

Exclusive Top-ups
Extra Discounts
Free Delivery

DINE-OUT PLACES

Swiggy Dineout

Credits can be transferred to dineout cash wallet and can be used while paying at a restraunt using the app.

THE FLYWHEEL EFFECT

"Every redemption deepens Swiggy's integration into campus life.
This increases dependence, drives more orders, and strengthens the entire ecosystem, creating a powerful, defensible moat against competitors."

Go-To Market & Operational Strategy

PILLAR 1 : ENGINEER THE LATE-NIGHT SUPPLY

Objective: Solve the core problem of limited late-night options

LAUNCH 'THE NIGHT HUB' PROGRAM

- Provide reduced commissions to partner restraunts.
- Offer demand forecasting data to minimize their risk

CURATE VIRTUAL "CRAVINGS" BRANDS

- Midnight Maggi Bar , Exam Fuel Bowls
- Operate out of existing, underutilized partner kitchens.

PILLAR 2 : BUILD A EFFICIENT DELIVERY NETWORK

Objective: Create a faster, more reliable delivery experience than any competitor.

FASTER SOPS FOR 'EXPRESS MENU'
DEDICATED CAMPUS FLEET
HOSTEL DROP-OFF POINTS

PILLAR 3 : THE GO-TO-MARKET LAUNCH PLAN

Objective: Drive mass adoption of the 'Campus Credits' ecosystem

PHASE 1	PHASE 2	PHASE 3
THE VIRAL LAUNCH	**GAMIFY & ENGAGE**	**DOMINATE & SCALE**
Launch with a "First Mover" bonus: 100 free credits for the first 1,000 students.	Roll out Personal Missions and Campus Leaderboards to create competition and deepen engagement.	Integrate Dineout and Swiggy ONE redemption to lock users into the ecosystem.

Projected Impact & Financial Viability

(Case Study: PEC Chandigarh)

BASELINE SCENARIO

Students : ~ 3000

TOTAL DAILY ORDERS : ~ 600

Swiggy's current position : ~252 orders per day (42% share)

IMPACT ON GROWTH

(Projected 1 year growth with 'Campus Credits')

Market Share Dominance	The viral "Squad Bonus" will pull users from competitors. We project a shift from 252 orders/day to over **310 orders/day**, capturing **>50%** market.
Increased Order Frequency & Volume	Gamified missions and valuable credits will drive repeat behavior. This translates to an increase of over **2,000** additional orders per month.
Hyper-Efficient User Acquisition	Assuming 30% of our daily orders become Squad Orders , each bringing in 0.5 new users, we will acquire **~45 new students per day with the help of 'Squad Bonus'**

FINANCIAL VIABILITY & COST EFFECTIVENESS

It's a self-funding loyalty system. The cost of credits is a marketing investment directly tied to revenue-generating orders, making it far more efficient than traditional cash-burning promotions.
